4

1: Heritage - 25mm Steel frame in silver, white & cashmere finishes.

2: Classic - 35mm Steel frame in silver, white, cashmere, walnut & light oak.

3: Shaker - 75mm Steel frame in 5 beautiful colours

4: Curve - 36mm Aluminium frames with hidden wheels.

# HERITAGE

## Colours:

White

Silver

Cashmere

The Heritage range is our lowest cost option without sacrificing any quality. Hand made from a 25mm wide steel frame and available in any combination of designs using the panels and design options on page.

# CLASSIC

## Colours:

White

Silver

Cashmere

Light Oak

The Classic range of sliding doors offers a slightly more traditional look to doors with a broader steel 35mm frame. Again this range can be made in any combination of designs found below.

# SHAKER

## Colours:

White  
Cashmere  
Light Grey  
Light Oak  
Walnut

The Shaker range is a very popular option that transforms a traditional look into something very modern. The frame is 75mm and made from British Steel to create a very stand out design.

# CURVE

## Colours:

Brushed Black

Satin Silver

The highest level of luxury in sliding doors. Our aluminium systems include ultra smooth rolling hidden mechanisms and ultra low profile tracking. The Curve range comes with inset soft closing dust strips to create a beautiful finish.

Choose your design: This part is very easy, you can select from any of the designs below and even have a combination of designs.

There is no such thing as a lower quality frame in our sliding doors. It is simply down to your design preference. Prices increase from left to right with our Curve range offering extra features
